@Becherair-Abdellah

abdellah.becherair04@gmail.com

Algeria , Ouargla

I am a Frontend Developer with 3 years of experience in web, studied computer science then I found my passion for working on anything web related especially the frontend later, I'm regularly writing technical posts on my blog (abdellahbecherair.net) and on some other websites. Proficient with CSS and JS Frameworks like react js and next js .

EXPERIENCE

● AYRIME

Cyber security company

Nov 2023 - Mar 2024

- I developed a Warehouse Management System (WMS), the system was open-source and allowed for new modifications to be added. I developed the interface using React.js and Redux

- I worked on developing the UI/UX for the company .

● CNTIC CLUB

Technical college club

Oct 2023 - Mar 2024

- I presented a free course within this club for a group of distinguished students on frontend engineering.

- I developed a dashboard specific to the club's website, where I and the club team worked on developing the website's interfaces.
